

Even though I've never met  
**BELLA LIU**,  
a Swarthmore College student,  
I admire her. She has a  
**HEART OF COMPASSION**  
for those the world neglects.  
One day, I hope my own  
**ABE and ANDY**  
will have hearts like hers,  
full of concern for Others.

Bella first became concerned  
about the **EPIDEMIC** in China  
and the millions of **ORPHANS**  
it left behind when she learned  
of the crisis through an  
**AMNESTY INTERNATIONAL**  
chapter she joined in her high  
school. Since elementary school  
is mandatory in China, most  
peasants can read and write.

Bella knew the same  
**MEMORY BOOKS**  
that are used in **AFRICA** would  
be **BENEFICIAL** also in China.  
In 2004, Bella traveled to  
Hong Kong to coordinate the  
**MEMORY BOOK PROJECT**.

The picture was taken in the  
offices of the  
**CHI HENG FOUNDATION**.  
(which provides  
financial and educational  
support for **AIDS ORPHANS** in  
central China, whose parents  
were infected through  
unclean bloodselling).  
Bags of stationery were  
collected for the project.  
Eventually,  
they **FILLED** the whole room.
